

# Brain Tumor Detection Report

## Scan Analysis Results

**Predicted Condition:** Pituitary

**Confidence Level:** 97.4%

## Severity Assessment

**Severity Level:** Moderate

**Risk Level:** Moderate

**Description:** Pituitary tumor detected with high confidence. Pituitary tumors (adenomas) are usually benign growths on the pituitary gland. They can affect hormone production and may cause vision problems if they grow large enough.

## Recommendations

1. Consult with an endocrinologist and neurosurgeon.
2. Hormonal blood tests are recommended.
3. Visual field testing may be needed.
4. Treatment options include medication, surgery, or radiation.
5. Many pituitary tumors respond well to medication alone.

## Image Quality Assessment

**Blur Score:** 94.02

**Brightness:** 53.1

**Contrast:** 49.83

**Quality:** Good

**Resolution:** 512x512
